(e) *Authentication of documentation.* Customs will determine the authenticity of the documents submitted. Once the authenticity of the documents is established, Customs will mark the documents. In most cases the original document(s) will be returned to the exporter. Subpart B—Filing of Export Information Through the Automated Export System (AES)

SOURCE: T.D. 99-57, 64 FR 40987, July 28, 1999, unless otherwise noted.

§ 192.11 Description of the AES.

AES is a voluntary program that allows all exporters required to report commodity export information (*see*, 15 CFR 30.16) to submit such information electronically, rather than on paper, and sea carriers to report required outbound vessel information electronically (*see*, §§ 4.63, 4.75, and 4.76 of this chapter). Eligibility and application procedures are found at subpart E of part 30 of the Census Regulations (15 CFR part 30, subpart E), denominated Electronic Filing Requirements—Exporters. These Census Regulations (15 CFR part 30, subpart E) provide that exporters may choose to submit export information through AES by any one of three electronic filing options available. Only Option 4, the complete post-departure submission of export information, requires prior approval by participating agencies before it can be used by AES participants.

§ 192.12 Criteria for denial of applications requesting AES post-departure (Option 4) filing status; appeal procedures.

(a) *Approval process.* Applications for the option of filing export commodity information electronically through AES after the vessel has departed (Option 4 filing status) must be unanimously approved by Customs, Census and other participating government agencies. Disapproval by one of the participating agencies will cause rejection of the application.

(b) *Grounds for denial.* Customs may deny a participant's application for any of the following reasons:

(1) The applicant is not an exporter, as defined in the Census Regulations (15 CFR 30.7(d));
